NOTICES PREPARATION AND PROCESSING COCKROACHES

Please note that your apartment must be treated against Cockroaches. To ensure successful treatment, your cooperation will be **necessary and compulsory**.

Before treatment

- 1) Please empty and clean the cabinets of the kitchen, the pantry and the toilet (bathroom). Place everything in the center of a room and cover with a sheet.
 - 2) Move the fridge and stove and clean behind.
 - 3) Doing spring cleaning of the kitchen, that is to say, remove all traces of food on appliances, walls, floor, countertop etc.
 - 4) Clear the bottom of the walls in every room of at least 24 inches, prior to treatment.
 - 5) **Be sure to leave a copy of your key** to the concierge or someone you trust, if you plan to be away.
-

During treatment

All residents and their pets (including birds) must leave the premises for **3 to 4 hours**.

After treatment

- 1) Ventilate the premises.
 - 2) Before you put things in place, put wax paper on the shelves, the bottom of the drawers, including the storage drawer of the range.
-

Note

It is normal to see Cockroaches for 2 to 3 weeks

Thank you for your cooperation
